

ELECTRONIC DEVICES

No student shall be permitted to use an electronic paging device, laser pointer, or digital- or computer-generated communication device (including but not limited to cellular phone, beeper, personal camera or camera/phone, IPOD, MP3, or other entertainment device) without express authorization from an administrator or teacher on the school premises during school hours. The use of any digital device (photo, video, voice recording) in any locker room area is specifically prohibited and will result in consequence.

An exemption to this policy may be allowed for the use or possession of a cellular phone and/or electronic device if the Board of Education's designee (Building Principal or District Administrator) determines that the device is to be used for or is possessed for a medical, school, educational, vocational, or other legitimate use and permission is granted by the designee. In addition, the use of cellular phones during non instructional times may be authorized by the building principal.

This policy shall be published annually in school district student handbooks.

Whenever this policy is revised by the board, the District Administrator shall submit a copy of such policy to the State Superintendent of Public Instruction.
