Home Alone Program

Is your child old enough/mature enough to stay home alone? Every child is different and there is no magic age, so join us and learn the signs that indicate your child is ready to be home alone. This course will take you through a booklet of considerations including your neighborhood dynamics, house rules and availability of adults nearby. In addition, we will talk you through internet safety and how to set home rules with your child. Come join us and make a plan for when your child is ready to be home alone.
