

STAFF PARTICIPATION IN COMMUNITY ACTIVITIES

The Board of Education urges the staff to participate constructively in community activities which have as their objectives the improvement and general welfare of the community, state and nation. In their relationship with community groups, a conscientious effort should be made by staff members to make school life a part of community life, and to bring the community close to the schools. Staff members should endeavor to know the community and its influences on and opportunities for students.

Staff members are to recognize that they may be viewed by the community as representatives of the Colby School District. However, staff members are not to claim to be official district representatives unless they have been so designated by the Board or the District Administrator.
