

Operationalizing a Strategic Plan

The success of this endeavor is based on the leadership of the Board of Education and the Superintendent to operationalize this plan.

The effects of atrophy can be minimized by creating an accountability process. This process includes:

- Monitoring cycles
- Timely reporting of progress
- Identification of roles and responsibilities
- Implementation of action plans
- Evaluation or measurement of success
- Adjustment of action plans
- Annual review and establishing of yearly goals

The process described above is called Plan-Do-Study-Act and was developed and promoted by the American Society for Quality. This organization is very heavily connected to business and industry and is a leader in developing systems that aid in producing high quality and effective management practices.
